

# John Deere 7000 AirForce Dual Bag Adapter Bracket Kit

Mounting plate goes on the row unit side of the parallel arm angle irons. Take nut off 7X7 u bolt, install plate, reinstall nut. Weld parallel arm spacers on the inside of upper par. Arms and lower right arm. Stop angle pieces go between the par. Arms and the stop bracket ( this keeps the air bags from bottoming out in the raised position..

Kit Price \$52 / Row
